PERFECT FOOD.

Perfect food is that which, while prepared in the most appetizing form, is also the most wholesome and nutritious. It should never be necessary to sacrifice the wholesomeness of an article in order to make it more palatable, nor, as is too often the case, should we be compelled to take our bread or cake bereft of its most appetizing qualities in order to avoid injury to our digestive organs.

The Royal Baking Powder possesses a peculiar quality, not possessed by any other leavening agent, that applies directly to this subject. It provides bread, biscuit, cake, muffins, or rolls, which may be eaten when hot without inconvenience by persons of the most delica... digestive organs. With most persons it is necessary that bread raised with yeast should lose its freshness or become stale can be eaten with safety. Discressing results likewise follow from eating biscuit, cake, pastry, etc., raised by the cheap, inferior baking powders that contain lime, alum, phosphates, or other adulterants. The hot roll and muffin and the delicious hot griddle cakes raised by the Rc al Baking Powder are as wholesome and digestible as - oup, meat, or any other food.

A qualification which makes the Royal Baking Powder inestimable as a leavening agent.

MANY CLAIMS FOR BENSON'S DIAMONDS. The Police Board yesterday received an opinion from Corporation Counsel Beekman regarding the money and diamonds which the police took from John Keily, who was trying to help Forger Benson escape from the Ludlow Street Jail. THE COUNTY DEMOCRACY ECONOMICAL, TOO. The County Democracy leaders have followed the example of Tammany Hall. At the meeting of the sub-executive committee, held at the New-Amsterdam Club on Monday evening, it was decided to limit the delegation to go to the Democratic National Convention at St. Louis, in June, to ten members of the organization from each Assembly District. The reason for this action is the same as that which ied Tammany Hall to abandon the idea of taking on a small brigade—the enormous expense. It was estimated by the leaders that it would cost an average of \$100 per man for transportation, sleeping ac-commodation, food, etc. Each organization would take on at least 1,000 men and this meant an expose of \$200. on at least 1,000 men and this meant an expense of \$200,000. a Presidential campaign and possibly a hot local campaign in the near future.
